Docente	Rossella Baroncelli
Unità formativa	Inglese
Argomento	Talking about technicalities - 1st part

TALKING ABOUT TECHNICALITIES -1st ATTEMPT

1) YOU'LL BE DIVIDED IN COUPLES
2) YOU'LL BE GIVEN OR YOU'LL CHOOSE ONE OF THE FOLLOWING TOPICS:

1. **Cloud Service Models (IaaS, PaaS, SaaS): Lorenzo A - Francesco**
2. **Cloud Deployment Models: Daniele - Luca Tarallo**
3. **Virtualization & Hypervisors: Christian - Yassine**
4. **Containerization & Orchestration: Andrea C - Luciano**
5. **Cloud Networking: Katherinne - Emanuele**
6. **Cloud Storage Types: Vito - Salvatore**
7. **Elastic Compute & Auto-Scaling: Kouankeu - Andrea S.**
8. **Serverless Computing: Simone - Anis**
9. **Cloud Security Fundamentals: Christopher - Edoardo**
10. **Identity and Access Management (IAM): Gabriele - Mario**
11. **Cloud Compliance & Governance: Jacopo - Alessandro P**
12. **Network Security in the Cloud**
13. **Cloud Architecture Design**
14. **DevOps & Infrastructure as Code (IaC)**

15. **Monitoring, Logging & Cost Optimization**

3) INVESTIGATE THE TOPIC GIVEN / CHOSEN. REMEMBER TO INCLUDE THE FOLLOWING POINTS:

1. **Simple definition**

   Start with a clear definition of your topic so that everybody understands the basic idea.

2. **Why it exists (the problem it solves)**

   Explain the real-world problem this technology addresses.

3. **How it works (core mechanism)**

   Explain the technical functioning (Divide the explanation in steps can be an idea to make it easier - let's avoid a wall of theory!)

4. **Real-world example**

   Make it concrete thinking, for example,of well-known companies (Netflix, Spotify, Amazon…) everyday scenarios (online shopping, streaming,backups)

5. **Advantages - Benefits**

   Why do organizations and people like using it (ex. cost, performance, flexibility, security, scalability…)

6. **Risks - Challenges**

   Why can it be considered risky or challenging? (ex. security risks, vendor lock-in, complexity, cost overruns…)

4) PREPARE "SOMETHING" TO LEAD YOU AND YOUR PUBLIC DURING THE CONTENT SHARING / PRESENTATION
5) LIST AT LEAST 10 TECHNICAL WORDS OR EXPRESSIONS RELATED TO YOUR TOPIC AND WRITE DOWN A COMPREHENSIBLE DEFINITION (one per group, send it via email to your teacher at rossella.baroncelli@its-ictpiemonte.it)

6) COME & TEACH US!
