Argomento	CLOUD - Acronyms

- Choose one of the following acronyms (we cannot have doubles):

1) **AWS** - Amazon Web Services
2) **AZ** - Availability Zone
3) **CDN -** Content Delivery Network
4) **CSP -** Cloud Service Provider
5) **DR -** Disaster Recovery
6) **FaaS -** Function as a Service
7) **HCI -** Hyper-Converged Infrastructure
8) **HSM -** Hardware Security Module
9) **IaaS -** Infrastructure as a Service
10) **IAM -** Identity and Access
11) **KMS -** Key Management Service
12) **K8s -** Kubernetes
13) **LB -** Load Balancer
14) **MFA -** Multi-Factor Authentication
15) **NAT -** Network Address Translation
16) **PaaS -** Platform as a Service
17) **RPO -** Recovery Point Objective
18) **RTO -** Recovery Time Objective
19) **S3 -** Simple Storage Service
20) **SaaS -** Software as a Service
21) **SDN -** Software-Defined Networking
22) **SLA -** Service Level Agreement
23) **SSD -** Solid-State Drive
24) **TLS -** Transport Layer Security

25) **VDI -** Virtual Desktop Infrastructure
26) **VM -** Virtual Machine
27) **VPC -** Virtual Private Cloud
28) **VPN -** Virtual Private Network
29) **WAF -** Web Application Firewall
30) **XaaS -** Everything as a Service
31) **API -** Application Programming Interface
32) **BYOK -** Bring Your Own Key
33) **CI/CD -** Continuous Integration / Continuous Deployment
34) **CMP -** Cloud Management Platform
35) **CSI -** Container Storage Interface
36) **CNI -** Container Network Interface
37) **IaC -** Infrastructure as Code
38) **MLOps -** Machine Learning Operations
39) **OIDC -** OpenID Connect
40) **QoS -** Quality of Service
41) **RBAC -** Role-Based Access Control
42) **SSO -** Single Sign-On
43) **VPNaaS -** VPN as a Service
44) **ZTNA -** Zero Trust Network Access

- Have a fast investigation about it (about 25 minutes)
- Come to the whiteboard and speak about it for **2 minutes (NOT LESS)** - If you realize you cannot talk for 2 minutes about the acronym chosen, add a new one.
